Jayne Ierna
Chair of the Grants Committee
Petit Family Foundation
PO Box 310
Plainville, CT 06062,

Dear Ms. Ierna:

Please accept our thanks for the Petit Family Foundation's grant _____ to the REACH Youth Program at Bridgeport Hospital. Your gift help us purchase equipment and supplies for the program. The equipment will be used in creative interventions to help patients learn specific skills, strategies and techniques to manage their concerns.

REACH serves children and adolescents who are struggling through school and life in a violent community where residents have limited access to high quality mental health services. With your help our underserved patients will have access to the same kind of care as children with greater resources. The therapy they receive at REACH can set them on the path to success in life.

I'll be in touch in a few days regarding the photo op on May 5 at the Le Petit Studio.

We are so grateful for your help. Your gift will make an enormous difference in the lives of many children. Thank you for your generosity.

Sincerely yours,

Donna J. Twist, PhD
